

Brief description

The Institute of Information Science and Technologies "Alessandro Faedo" (ISTI-CNR) cordially invites you on 30.05.2025 to attend the **ONSITE Gate4SPICE** event hosted at Kilometro Rosso at Stezzano (BG).

After four years since the publication of the 1st Automotive SPICE® for Cybersecurity, its popularity as a plug-in PAM is slowly consolidating, negotiating its place beside the ISO/SAE 21434. Attention is now re-ignited by the publication of the draft of the 2nd version (yellow book format), that aligns ASPICE for CS to PAM 4.0.

After a general introduction to ensure that all participants are aligned on the core aspects, we propose three specific topics that have proved to be typical challenges in ASPICE for CS compliance, trying also to address new challenges from V2:

- How to integrate ACQ.2 and ACQ.4
- Risk Management in MAN.5, MAN.7 and TARA
- Mapping and traceability in the SEC Group processes

Following presentations from three principal assessors, for each of the three topics, a dedicated parallel Workshop is foreseen, to discuss experiences and practical issues.

The event is co-organized with Kugler Maag CIE by UL Solutions and Exida development SRL.

This event will be held in the [Italian language](#).

Organization

Host: Institute of Information Science and Technologies "Alessandro Faedo" - ISTI-CNR

Organizer/Responsible for content: Fabio Bella (UL Solutions), Carlo Donzella (Exida development SRL), Giuseppe Lami (CNR)

Site: Kilometro Rosso Innovation District | Gate 4 – Centro delle Professioni | Via Stezzano, 87 – Bergamo

Date: 30.05.2025 from 09:00 to 17:00

Maximum number of participants: 30

Application until: 31.03.2025

ONSITE: On the event, the organizer will distribute an attendance list. Only participants who have signed this list will receive an EE-EP certificate.

By registering for this G4S Event, you agree that your personal information (name, email address, assessor status) will be forwarded to the organizer of the respective G4S event.

How to register

Send a message to giuseppe.lami@cnr.it

In case the event is fully booked, a waiting list is maintained (contact giuseppe.lami@cnr.it). If a place becomes free another attendee can take part.

Participation is prioritized for intacs certified assessors. Nevertheless, if free seats are available one week before the event, intacs.info users are welcome to participate and receive a confirmation email.
